Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by

JP 09-289342.

See **fig. 1** and abstracts.

Election/Restrictions

2. Newly submitted claims 21-28 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: they are directed to **figs. 3A, 8, and 10**.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 21-28 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Arguments

3. Applicant's arguments filed 2 August 2001 have been fully considered but they are not persuasive.

With respect to claims 1-4, the Applicant has stated that JP 09-289342 does not contain the limitation "at least one of the piezoelectric elements having a thickness which differs from that of at least one of the other piezoelectric elements in accordance

with the preselected mode of vibration." It is the Examiner's position that the reference does show different thickness and that the preselected mode of vibration is an inherent property of the device shown in **fig. 1**.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
